Yutaro Mikami （三神 雄太郎）

RIKEN, Center for Advanced Intelligence Project AIP, Mathematical Science Team
Wako, Saitama 351-0918, Japan
Email: ymikami.math@gmail.com

Employment.

- Special postdoctoral researcher (SPDR), RIKEN, April 2026 – present

Education.

- Doctor, Mathematical Sciences, The University of Tokyo, April 2023 – March 2026
  Supervisor: Yoichi Mieda
- Master, Mathematical Sciences, The University of Tokyo, April 2021 – March 2023
- Bachelor, Science, The University of Tokyo, April 2017 – March 2021

Grants / Fellowship.

- JSPS Research Fellow (DC1), Japan Society for the Promotion of Science, April 2023 – March 2026

Awards.

- Dean's Award (Doctor Course), Graduate School of Mathematical Sciences, The University of Tokyo, March 2026
- Dean's Award (Master Course, valedictorian), Graduate School of Mathematical Sciences, The University of Tokyo, March 2023

Papers.

- "Fppf-descent for condensed animated ring." Nagoya Mathematical Journal. 2026;261:e52.
- "On the relative Nullstellensatz in nonarchimedean geometry." with Kiran S. Kedlaya, Res. Number Theory 12, 25 (2026).
- "Faithfully flat descent of quasi-coherent complexes on rigid analytic varieties via condensed mathematics." Int. Math. Res. Not. IMRN 2024, no. 8, 7099–7128.

Preprints.

- "Geometric properties of the analytic Emerton-Gee stack." arXiv preprint, arXiv:2610.38115 (2026)
- "The p-adic monodromy theorem over algebraic-affinoid algebras." arXiv preprint, arXiv:2604.12280 (2026).

- "Finiteness and duality of cohomology of (φ, Γ)-modules and the 6-functor formalism of locally analytic representations." arXiv preprint, arXiv:2504.01780 (2026).
- "(φ, Γ)-modules over relatively discrete algebras." arXiv preprint, arXiv:2409.14145 (2026).

Talks in Seminars / Workshops / Conferences.

1. "Geometric properties of the analytic Emerton-Gee stack," Number Theory Seminar at Rikkyo, Rikkyo University, October 16, 2026.
2. "Finiteness and duality of cohomology of (φ, Γ)-modules", Science Tokyo Number Theory & Arithmetic Geometry Seminar, Institute of Science Tokyo, July 24, 2026.
3. "The categorical p-adic Langlands correspondence and condensed mathematics", Keio University Arithmetic Geometry Workshop, Keio University, April 23, 2026
4. "Emerton-Gee stack and its modification", The 30th Conference on Algebra for Young Researchers in Japan, Institute of Science Tokyo, March 12, 2026.
5. "The p-adic monodromy theorem for families over relatively discrete algebras", Geometrization of the local Langlands correspondence, CIRM, February 17, 2026.
6. "Cohomology of (φ, Γ)-modules and duality", Oberseminar Arithmetic Geometry and Representation Theory, Max Planck Institute for Mathematics, May 23, 2025.
7. "Cohomology of (φ, Γ)-modules and duality", Workshop on Frontiers in Number Theory, Tianyuan Mathematics Research Center, May 12, 2025.
8. "Finiteness and duality of cohomology of (φ, Γ)-modules and the 6-functor formalism of locally analytic representations, I, II", Mittagsseminar zur Arithmetik, The University of Münster, April 29, May 6, 2025.
9. "Cohomology of (φ, Γ)-modules and duality", 2025 Lyon-Tokyo conference in Number Theory and Arithmetic Geometry, ÉNS de Lyon, March 25, 2025.
10. "(φ, Γ)-modules over relatively discrete algebras", Algebraic Number Theory and Related Topics 2024, RIMS, January 6, 2025.
11. "(φ, Γ)-modules over relatively discrete algebras", Workshop on Shimura varieties, representation theory and related topics, The University of Tokyo, October 10, 2024.
12. "Finiteness of (φ, Γ)-cohomology", 23rd Sendai-Hiroshima Workshop on Number theory, Tohoku University, July 11, 2024.
13. "Descent theory in condensed mathematics", NTU-UTokyo Joint Conference: Number theory and arithmetic geometry, National Taiwan University, December 7-8, 2023.
14. "Faithfully flat descent of quasi-coherent complexes on rigid analytic varieties via condensed mathematics", Number Theory Seminar, The University of Tokyo, May 24, 2022.

15. "Faithfully flat descent of quasi-coherent complexes on rigid analytic varieties via condensed mathematics", Number Theory Seminar, Kyoto University, July 29, 2022.
16. "Faithfully flat descent of quasi-coherent complexes on rigid analytic varieties over non-archimedean local fields via condensed mathematics", 21st Sendai-Hiroshima Workshop on Number theory, Tohoku University, July 14, 2022.

Survey Talks.

1. "Affine, prim and suave", Gestalt Workshop, Keio University, September 24-30, 2026.
2. "Arithmetic Fundamental Lemma", Kurashiki Number Theory Meeting, Kurashiki Seaside Hotel, September 5-12, 2026.
3. "Condensed mathematics", Pretalk of Science Tokyo Number Theory & Arithmetic Geometry Seminar, Institute of Science Tokyo, July 24, 2026.
4. "GLC I: Construction of the functor (1)", Kanazawa Arithmetic Geometry Meeting, Ishikawa Prefectural bunkyo hall, March 16, 2026.
5. "Condensed mathematics and its applications", Algebraic Number Theory and Related topics 2025, RIMS, December 15, 2025.
6. "The $K(\pi, 1)$ theorem (I): the Bertini theorem", Yatsugatake workshop on Wild Ramification and Etale Homotopy, Yamanashi, Japan, September 19, 2025.
7. "Revêtements du demi-plan de Drinfeld et correspondance de Langlands p-adique", Kurashiki Number Theory Meeting, Kurashiki Seaside Hotel, September 8-9, 2025.
8. "Emerton-Gee stack", Kurashiki Number Theory Meeting, Kurashiki Seaside Hotel, September 8-15, 2024.
9. "Locally analytic functions on perfectoid modular curves", Kanazawa Arithmetic Geometry Meeting, Ishikawa Prefectural Bunkyo Hall, March 25-29, 2024.
10. "Higher Coleman theory", Kurashiki Number Theory Meeting, Kurashiki Seaside Hotel, September 11-18, 2023.
11. "The solid structure on a Huber pair", Yatsugatake workshop on Condensed Mathematics, Haramura, Japan, September 7, 2023.
12. "The Yoneda embedding, and the adjoint functor theorem", Kurashiki Number Theory Meeting, Kurashiki Seaside Hotel, February 6-10, 2023.
13. "Etale cohomology of diamonds", Kurashiki Number Theory Meeting, Kurashiki Seaside Hotel, September 6-7, 2022.

Conferences/Workshops I have (co-)organized & Other Activities.

1. "Gestalt Workshop", Keio University, September 24-30, 2026.

Teaching.

- Winter 2025, Teaching assistant, "Algebra and Geometry", The University of Tokyo.

- Winter 2024, Teaching assistant, “Algebra and Geometry”, The University of Tokyo.
- Winter 2023, Teaching assistant, “Algebra and Geometry”, The University of Tokyo.
